

# LFO, What If

Played a part of joe d'maggio  
Oh where'd that horse and carriage go?  
In the castle I'll build for you  
On an island meant just for two  
Would it be just stuck around  
What if all that's lost was found  
What if I could be, the only one that she'd ever dream of

If I were some movie star  
With some big expensive car  
At some big first night premiere  
With ben affleck and richard gere  
Would you give me just one look  
If I wrote some obscure book  
Would you give me just one chance  
In some other circumstance

Someone like me, deserves someone like you  
Lalalalalalalala

If I was the great houdini  
Granting wishes like a geni  
If I were some big tough guy  
Who went to mars and made you cry  
Told you lie cause they say  
Nice guys will lose anyway  
In some other circumstance  
Would you give me just one chance?

Oh where'd that horse and carriage go?  
Or the castle I'll build for you  
On an island meant just for two  
Would it be just stuck around  
What if all that's lost was found  
What if I could be, the only one that she'd ever dream of

What if I (what if I was the only one)  
What if I was the only one  
If I were a super hero  
A good fella like de'niro  
If I could face all my fears  
And dated girls like britney spears  
Wore black leather on a harley  
In jamaica like bob marley  
In some other circumstance  
Would you give me just one chance?
