

# LFO, Your Heart Is Safe With Me

I know you know that love can make you cry and break your heart  
and you can never fall, you can never fall  
and so you're so afraid to let somebody in  
baby won't you try again, try again

=====chorus=====

'cause your heart is safe with me  
I'll never hurt you  
I'll be there through everything  
I won't make you cry  
I know this world is cold but in my arms you'll see  
that your heart is safe with me  
that your heart is safe with me, safe with me

what can I do for you to make you understand, you're in good hands  
I'll never do you wrong, never do you wrong

what can I say to make your doubts all dissappear  
I won't let no tears get near, no baby, I'll be here

=====chorus=====

I will be there for you  
be anything you need  
love can last forever  
I'll show you how it feels  
I'll keep my heart beside you  
so your heart will see  
that you heart is safe with me  
that I'll never hurt you

=====chorus 2 to fade=====
