

# Liam Payne, All I Want (For Christmas)

tell me where did we go wrong  
we should be singing Christmas song  
instead of shouting all night long  
like we do

we keep fighting in the street  
when we should be home wrapped in the sheets  
putting presents underneath the tree  
me and you

I know we've had our fair share  
of breaking up  
and making up  
but I promise you we'll get there  
so don't give up, no, no!

if we can make it through December  
maybe we'll make it through forever  
cos all I want for Christmas  
is you and me to fix this  
yes, if we make it through December  
every New Year we'll be together  
baby all I want for Christmas  
is you and me to fix this

it hasn't been the greatest year  
but through thick and thin we made it here  
just keep holding on to me  
and I'll hold you

but we made it through the hardest part  
and I followed you the brightest star  
I just wanna be where you are  
right where you are

All I want, yeah  
All I want, yeah  
All I want, yeah  
All I want, yeah

baby all I want for Christmas  
is you and me to fix this  
baby all I want for Christmas  
is you and me to fix this
