

# LIAMOO & KUBA, Running With Lightning

Going under  
I don't wanna fade away  
Follow thunder  
Can we die another day

Hiding from the ghosts, they're inside of me  
I don't wanna know when it's time to leave

If tomorrow is all we've got  
We're running with lightning  
If it's all gonna turn to dark  
We're gonna be shining

And we blaze and we blaze  
And we brake and we brake  
Holding ...

If tomorrow is all we've got  
We're running with lightning  
Till we're gone

Oh, my head, yeah  
All I know it's nothing lasts  
But we can't fear  
That it's all gone in the flash

Hiding from the ghosts, they're inside of me  
I don't wanna know when it's time to leave

If tomorrow is all we've got  
We're running with lightning  
If it's all gonna turn to dark  
We're gonna be shining

And we blaze and we blaze  
And we brake and we brake  
Holding ...

If tomorrow is all we've got  
We're running with lightning  
Till we're gone
