

Liars Academy, Dreams In Technicolour

Tell me that its over
Tell me that this don't matter
You said a joke it's not funny
You said I take you for granted
No
And you know
I never gave up on you
But when we dream in color
It's the same as black and white
This is my house
And it's dirty
But just don hold it against me
No
And the sun
Comes up for everyone
But when we dream in color
it's the same as black and white.
