

Liars Academy, Quarter Life Crisis

I'd like to change
So many thing
Change my face
My sensibility
Night falls and I fall
Asleep and I dream
Of fast cars
Palm trees
And movie stars
I'd like to change
So many things
The sun and moon
And the way the earth spins
Night falls
And I fall
Asleep and I dream
Of green grass
Spring nights
And you and me
And If I had the chance
I would change so many things.
