Liberty X, Divine Intervention

Brothers fighting brothers Lovers fighting lovers People barely caring anymore Nations hating nations Love is lost in the equation One world and there's still so many wars

It's like this whole world's caught in Some crazy storm

We could use some Divine intervention God, if you're listening Won't you help us Find a solution To all this confusion (Ooh)

Lives in desperation A world of devastation No one knowing where it's gonna go We got too many too hungry And we gotta stop this suffering And I don't think we can do it on our own Our own, oh

And right now we need something To save our souls

We could use some
Divine intervention
(Divine)
God, if you're listening
Won't you help us
Find a solution
To all this confusion
(We sure could use some)
(Some, oh, yeah)

Show us that a change is gonna come Help us to replace the hate with love (With love) Overflow our hearts with kindness (Ooh. ooh) Help us lift the clouds out of the way

We could use some
Divine intervention
(Divine intervention)
So God, if you're listening
Won't you help us
Find a solution
To all this confusion

We need some divine intervention Oh, yeah Oh, oh, oh, ooh Said oh yeah Ooh

We gotta find a way Gotta find a way We've gotta find away Gotta find a way You know we need you God

We've gotta find a way Gotta find a way Gotta find a way

We've gotta find away Gotta find a way You know we need you God

Oh, oh, oh
