

# Liberty X, Holdin On 4 U

Trust is all it takes  
people make mistakes

Sunshine fades to grey  
The second I'm away  
Minutes turn to hours without you

Time keeps marching on  
The summer's been and gone  
And I'm still here alone still waiting

I'm on my own a million miles away  
Temptation all around  
It Won't be long so please be strong  
Cause I'm holding on for you  
(I'm holdin' on, I'm holdin' on for you-u)

Trust is all it takes  
People make mistakes  
Cause we are only human - lets face it

And I struggle through the day  
Pretend that I'm ok  
And make believe that you're here inside me

I'm on my own a million miles away  
Temptation all around  
It won't be long so please be strong  
Cause I'm holding on for you

You are the one that I can truly believe in  
So don't ever think that I would ever diss ya baby  
Without a doubt you are my rhyme and my reason  
And I won't let you down

(Holdin' on  
I'm holdin' on for you) x3

Cause I'm on my own a million miles away  
Temptation all round  
It won't be long so please be strong  
I'm holding on for you

I'm on my own feelin' blue  
Miles from home  
I'm lost without you  
But I'll be strong keep holding on  
Holding on for you
