Liberty X, Never Give Up

Ooh
Oh yeah
Oh yeah

We were looking round
Waiting for the right time
Everybody saying
"Careful what you do,
You've got everything to prove,"
They were saying
"You gotta do it now 'cos if you don't
You know you're gonna fade away
You gotta listen to what we say
Gotta realise you don't know the game like I do"

We drew the line
(We drew the line)
Used our own minds
(Used our own minds)
Chose not to take their advice
We didn't know
(Ohhh)
Which way to go
(Ohhh)
So we just followed the signs

Never let them get you down
You've got to turn around and
Find your own way to it
You know it's
Up to you
To pull yourself through
All the troubles
It's a struggle
But be strong and you'll do it

Never let them get you down
You've got to turn around and
Find your own way to it
You know it's
Up to you
To pull yourself through
All the troubles
It's a struggle
But be strong and you'll do it
