

Lidia, Sleep

Tell me where you're coming from
Did you walk it all alone
What kept you going on
You can see it in my eyes
I've been waiting all my life
Waiting just for you
So tell me now what's going on
I've been waiting far too long
Waiting for to sleep
But I can breath
So long I breath
Ref.

In my dreams I sleep
With my eyes I keep
With my hands I can't let you go
From the darkest night
To the morning light
I fall I?m falling into deep
I?m dreaming for to sleep
Need a word to put it right
Place myself in shining light
You look as if you know
Need a word like it's alright
Explaining you're here at my side
And say you gotta go
But I can breath
So long I breath
Ref.

In my dreams I sleep
Dreaming for to sleep... itd.
