

# Lidia, Sleep

Tell me where you're coming from  
Did you walk it all alone  
What kept you going on  
You can see it in my eyes  
I've been waiting all my life  
Waiting just for you  
So tell me now what's going on  
I've been waiting far too long  
Waiting for to sleep  
But I can breath  
So long I breath  
Ref.

In my dreams I sleep  
With my eyes I keep  
With my hands I can't let you go  
From the darkest night  
To the morning light  
I fall I?m falling into deep  
I?m dreaming for to sleep  
Need a word to put it right  
Place myself in shining light  
You look as if you know  
Need a word like it's alright  
Explaining you're here at my side  
And say you gotta go  
But I can breath  
So long I breath  
Ref.

In my dreams I sleep  
Dreaming for to sleep... itd.
