

Life In Pictures, All My Pirates Share The Grave

Abandon ship.
it's going down.
my comrades,
my pirates,
we all share the grave.
to set sail.
stern and bow.
take the helm,
face the storm,
we got to ride this one out.
an abstract thought yeah.
a winters day.
to set sail yeah.
and to face the rain.
glory boys,
the memories you take.
we won't forget,
make no mistake.
make no mistake.
everyday
the impression you made.
make no mistake.
all my pirates share the grave.
you were my brothers, no doubt about it.
my childhood friend. we grew together.
wish i could have told you
i wouldn't know
what to do
if you died.
all my pirates share the grave.
all my pirates share the grave.
you were my brothers,
no doubt about it.
my childhood friend. we grew together.
wish i could have told you
i wouldn't know
what to do
if you died.
all my pirates share the grave.
all my pirates share the grave.
all my pirates share the grave
all my pirates share the grave
