

Life Sex And Death, Farm Song

I've been around
Seen lots of CITIES, lots of TOWNS
I've been around
Lived in chicago and L.A.
I've been around
But there's one thing I'd like to say
That's the farmland is the place where I belong
The farmland is the place where I belong
You got the chicken and roosters and the cows and coo
Hey second verse same as the first...
I've been around
Seen lots of cities, lots of towns
I've been around
Lived in chicago and L.A.
I've been around
But there's one thing I'd like to say
That's the farmland is the place where I belong
The farmland is the place where I belong
