

Life Sex And Death, Raise A Little Hell

Well the black man
Workin' on the chain gang
He don't know what evil left behind
We all need to raise a little hell
Before we get to Heaven
Well the farm man pullin' tractors through the sand
He should plow his governmental man
Well the green man he don't understand
Everywhere you go people all around are sinkin' low
Sinkin' low
We all need to raise a little hell
Before we get to Heaven
