

Lifehouse, Ordinary Pain

I know the thing i did
When your love is not your pain
You stand on the choice you've made
We gotta live this way
We know a way to you.
So stop, stand still for a minute if you will
Got a bucket full of sunshine everytime
We don't have to talk about the ones that we can't live without
Cause everybody needs somebody it's just an ordinary pain.
We all look down to you
And the places where you've been
Cause still you have to face
For someone to erase
And all he has been doing.
So stop, stand still for a minute if you will
Got a bucket full of sunshine everytime
We don't have to talk about the ones that we can't live without
Cause everybody needs somebody it's just an ordinary pain.
(just an ordinary pain - nanananana)
(just an ordinary pain - nanananana)
Nanananana
So stop, stand still for a minute if you will
Got a bucket full of sunshine everytime
We don't have to talk about the ones that we can't live without
Cause everybody needs somebody it's just an ordinary pain
Everybody needs somebody
It's just an ordinary pain
Everybody needs somebody
It's just an ordinary pain.
