

Lifehouse, Through These Time

I was alone living miles away
I'm reading the signs and they've got nothing to say
It's always the same reasons of why I should stay
But I've got nowhere else to go
So tell me where to go from here
(so tell me where to go from here)
Tell me how to find another way
That you can get me out of this
(you can get me out of this)
If I could only make it through the day
So tell me where to go from here
(so tell me where to go from here)
Tell me is there more to find
I'm looking for the only one
(i'm looking for the only one)
Who can get me through these times
There was a time
When I'd rather run away
If there was a place to hide
That's where you'd find me today
But there was nowhere to run
No one else to face but myself
You don't have to tell me I'm wrong
So tell me where to go from here
(so tell me where to go from here)
Tell me how to find another way
That you can get me out of this
(you can get me out of this)
If i could only make it through the day
So tell me where to go from here
(so tell me where to go from here)
Tell me is there more to find
I'm looking for the only one
(i'm looking for the only one)
Who can get me through these times
Why can I look you in the eye
And know you see through me so I try to look away
So tell me where to go from here
(so tell me where to go from here)
Tell me how to find another way
That you can get me out of this
(you can get me out of this)
If i could only make it through the day
So tell me where to go from here
Tell me is there more to find
I'm looking for the only one
Who can get me through these times
