

Lifehouse, We'll Never Know

Tell me all the dreams that you have let slip right through your hands
Do you feel lost inside of someone else's life

and we're not gonna live forever
Can you tell me is it now or never
I'm not gonna make up your mind

I don't wanna live without you
And I don't wanna live a lie
We'll never know till we try
Yeah we'll never know till we try

Failure is the only way to learn till you've come undone
the rest we'll never find out what they might have been

and we're not gonna live forever
Can you tell me is it now or never
I'm not gonna make up your mind

I don't wanna live without you
And I don't wanna live a lie
We'll never know till we try
Yeah we'll never know till we try

So don't tell me sometime just where did we go wrong, yeah

and we're not gonna live forever
Can you tell me is it now or never
I'm not gonna make up your mind

I don't wanna live without you
And I don't wanna live a lie
We'll never know till we try
