

# Lifer, Blurred

make up your mind  
what's your decision?  
don't say that to me!  
looking back to before  
was it me that pushed you out the door?  
now i am the one that you want to meet  
i can't shake your hand  
you starred at you son  
but not for long  
i wasn't the one that gave you up  
believe in your son because im right here  
you were never there  
it's not like before  
somewhere in the middle of it all  
you're looking at me  
thinking back to before  
it wasn't me that pushed you out the door  
now i am the one that you want to meet  
you're my newest fan  
you starred at you son  
but not for long  
i wasn't the one that gave you up  
believe in your son because im right here  
you were never there  
you starred at you son  
but not for long  
i wasn't the one that gave you up  
believe in your son because im right here  
you were never there  
you were not there  
it's not fair  
do you care?  
i don't care now  
you're still not here  
it's not fair  
you don't care  
i don't care
