

Lighthouse Family, Sweetest Operator

(Sweetest Operator x 4)

Hey you don't realise your strength
Sweet enough as you are, don't change

To tell the truth, when I'm with you
Aint nothing ever going to get me down now
The way with you, the things you do
Aint never never ever gonna let you down now

I got the feeling that you could be the sweetest operator
And I got that feeling that's what you are
I've got a feeling that you could be the sweetest operator
And I got that feeling that's what you are

Hey I don't recognise the score
So I'll stick to the things I know
But I am still looking for a way
Think about every day now
And you can prove the very thing
The way you operate is such a relief

I got the feeling that you could be the sweetest operator
And I got that feeling that's what you are
I got a feeling that you could be the sweetest operator
And I've got that feeling that's what you are

I have to laugh the way you make perfect sense
From every word I ever spoken,
I got a reason
I got the feeling that you could be the sweetest operator
And I got that feeling that's what you are
I got the feeling that you could be the sweetest operator
And I got that feeling that's what you are
