

Lights Of Euphoria, Aggression Pact

Stage is filling
There's no base
Break the waves
Kick the barriers

Words explode, believe!
Has to know your tyranny
And all time mates are leaving

All your slaves leaving

Aggression pact
And lies infact
The silent moods out

Aggression pact
And hate infact
The party crowd dead

Aggression pact
And lies infact
The silent moods out

Aggression pact
And death infact
War beasts back!

Aggression pact

Revenge for us
The faces grinning
We break the law
The wheels are spinning

Revenge for us
Your anger too
Is packed in jokes
To taking you

Aggression pact
And lies infact
The silent moods out

Aggression pact
And hate infact
The party crowd dead

Aggression pact
And lies infact
The silent moods out

Aggression pact
And death infact
War beasts back!

Words explode, believe!
Has to know your tyranny
And all-time mates are leaving
All your slaves leaving

Aggression pact
And lies infact
The silent moods out

Aggression pact
And death infact
War beasts back!
