

# Lights Of Euphoria, Nothing To Save

You take a look  
And then you know  
A trip over the edge  
Is way too much

Without love  
And without soul  
No helping hands  
You are alone

No helping hands  
You are alone  
With no one to understand  
Look at you  
And the life you led  
I'll preach  
You'll pray  
But there's nothing to save

Always on your mind

You make a turn  
To change your life  
A second too late  
So everything will end
