Lights Of Euphoria, Slow Motion

I was alone So alone Do you know On my own Artificial light was the only sign of life

My legs are moving in slowmotion Here I stand Captivated Stuck for life in my dreams Nightlife

It was so blinding, mesmerising Hurting me Burning me A question to my creator Would you be there for me?

My legs are moving in slowmotion Here I stand Captivated Stuck for life in my dreams Nightlife

I was alone So alone

Express your delight It's okay when you need me You need me now
