

# Lights Of Euphoria, Wings Of Time

I feel sorrow in my heart  
Kiss your lips and fall apart  
Feeling pain inside of me  
Ever wanted to be free

All that is and could be done  
Feel your torture inside of me  
Shades of black and shades of white  
Guess who's wrong  
And guess who's right

Angels

Right up here  
Into the sky

Can you feel the pain in me?  
You never wanted me to be free  
My own world in your head  
This is not what I meant

Put your trust in me  
That's what makes you free  
Never play this game with me  
A figurehead  
You'll never be
