

# Lightyear, Bomb Ibiza

(Bomb Ibiza!)

A simple song of sympathy  
Is how it started, honestly  
Won't turn my life around  
It turned my life around  
A million smiles of people met  
One 'hello' and friendship's set  
Won't turn my life around  
It turned my life around

And I am sure we don't deserve this gift  
Of a better time and a better way  
Of how we used to live  
Thank you for everything you've done  
As we drift away  
As we drift away  
As we drift into the sun

When you're feeling low  
Don't hide, don't run  
It's easy to get into the motion  
Come on baby, dance with me now  
Take off your shoes  
Get into the groove, now go
