

Like A Fox, Almost There

Walk on by but the hole in the ground is bigger than the hole in the sky
One last try
Give it all you can
Give it all you can
Give it all you can

Breathe it in
Pass it by with a grin
Let it in
Let's begin
Because we're almost there
We're almost there
We're almost there
Almost there
We're almost there

You might think
It's over with a blink
Of an eye
Keep it alive
We're almost there
We're almost there
We're almost there
Almost there
We're almost there
We're almost there
We're almost there
