

# Like A Fox, Kingdom Come

A punch in the teeth or a kick to the shins  
It's how it always begins

Kingdome come  
Came and went  
Left me broken  
Left me bent

Be careful what you wish for  
That's what they say  
I wish I could be careful  
Wish I could care about anything  
When they swing

The good old days  
Must have come and gone  
I wish I could remember one

The youth is wasted on the young  
You end up holding the bottom rung

Be careful what you wish for  
That's what they say  
I wish I could be careful  
Wish I could care about anything  
When they swing  
I stick out my chin  
You can call it a day  
But it's just the beginning  
It's just the beginning
