

# Like A Fox, Little Nightmare Girl

The plan is set  
It's on  
Send us your best  
I've been better than you think

Everything seems to fit  
Together without a hitch  
We're better than you think

The blinking lights are cold  
The sun sets quick we're getting told to leave

Little nightmare girl

Here for a last stand  
Now you know the plane  
It's better than you think

Scrolling through a list  
To loosen up a tight lipped fist  
We're better than you think

A glass house on the hill  
The night leaks out let's go and keep it still

Little nightmare girl
