

# Lil Baby, Frozen

Can someone come unthaw my heart, I think it's frozen

How you bring a knife to a gunfight  
They gon' always do it twice when it's done right  
I remember ridin' 'round 'til the sunlight come up  
I ain't tryna argue so I hung up  
D-Boy fresh with it on me, know how I pop out  
If bullshit is not important, what I'm gon' lie 'bout?  
Don't play with Baby, I give you sum to cry 'bout  
That's a dime, that's for you and four of your friends to fly out  
Every time we outside, that shit be goin' up  
I got women tryna get at me like you been growin' up  
Really, I know you see what's happenin', I'm steady blowin' up  
I know niggas want me to fall but I'm steady goin' uphill  
Started from the bottom, how the fuck I'm up here?  
If you really came from nothin', then you know how that feel  
Ain't no extras, only steppas, that's the way that I live  
Put some extras on it, blessed it, nigga that's what I did  
Heart cold frozen, got my mindset on where on however this shit go  
Still kinda nervous hopin' nobody would notice it  
At the point, I met you, slowed me down  
You fuckin' up my focus, bro, I'm really on some more shit  
Ain't been on the scene that much, I'm somewhere gettin' loaded  
Ain't talkin' 'bout weed that I smoked or lean that I po'd  
I'm talkin' 'bout this money I'm savin' up, I been in the tuck  
Fuckin' with me, winin' the lottery, ayy, who feelin' lucky?  
Know some real ones ready to slide with me if I press the button  
People who done really been down from me, they don't ask for nothin'  
Keepin' it one million, I'm too real to say that I'm one hundred  
You are not the one 'cause you got money, real shit

I don't know what they told you, but you got me fucked up  
You see how we walked in? You can't see we run stuff?  
I gotta think out the box, I hate bein' bunched up  
Glad that I been through a lot, it made me a monster  
I done seen this shit get grimy, I can't have no conscience  
See 'em tryna clone me N' all, but it's only one me  
If I came in this world alone, why I get lonely?  
Can someone come unthaw my heart, I think it's frozen

I don't feel a lot of this shit, I can't even hold you  
Catch me in the Hamptons with Mike Rubin or Hov' them  
Or catch me in the hood with a Lamborghini with the doors up  
I can't even lie, it broke my heart, I heard you told some  
Gotta keep my fire under my jacket, it's a cold world  
She with me when he go out to practice, this a cold girl  
She a goblin, she don't even stop it, make your toes curl  
Bae, I'm sorry for puttin' our business out there  
You too cool for losing, you could be winnin' out here  
You keep it wet, I'm gon' invest, support yo' swimmin' line  
Don't worry 'bout that, just do 'yo best, I promise you'll be fine  
You let that shit come out yo' mouth, now you can't press rewind, it's stuck there  
Five million cash, all blues, you get a rush, yeah  
I don't need a nigga or a bitch, who the fuck cares?  
You the one that's really sour, I ain't even gon' go there  
You was 'posed to be here, but oh well

I don't know what they told you, but you got me fucked up  
You see how we walked in? You can't see we run stuff?  
I gotta think out the box, I hate bein' bunched up  
Glad that I been through a lot, it made me a monster  
I done seen this shit get grimy, I can't have no conscience  
See 'em tryna clone me N' all, but it's only one me  
If I came in this world alone, why I get lonely?

Can someone come unthaw my heart, I think it's frozen
