

# Lil Baby, Hats Off

Change my name to the kid, that's a baby goat  
Keep a Drac' like I started up OVO  
You can get a percent, but I want the most  
Got a house with a lake, so I bought a boat  
'Bout to switch up a play, that's an audible  
State-to-state, private jet with some model hoes  
Had to run up more dollars than followers  
Me and bae take the week off in Cabo  
Life's a gamble, I'm playin' the lotto  
I'm bettin' it all 'cause I know that I got 'em  
'Member me? I was drivin' Impalas  
We don't beef, if it's problems, we solve it  
I remember that D2 revolver I bought for my partna  
He died in a argument  
They was hatin', that's why I'm way farther than 'em  
'Member askin' my mom where my father been at  
Ain't no talkin', that fire what I'm tryna get at  
Niggas cuffin' these hoes that the crew done been had  
Get them racks out the bank, put it right in the bag  
Say he wouldn't do that, but he would if he can  
Hop out marchin' with drums like we play in the band  
I come straight out the mud, I ain't been in no sand  
Twenty-hour flight, had popped me a Xan  
I got horny, almost fucked on a fan  
I had thought about it, I can't end up on Shade Room  
Everything that I hit, I done paid for  
She know what I can bring to the table  
I can tell if it's real by the label  
We had TV, but we didn't have cable  
Now I'm richer than all of my neighbors

I wear my chain proud, it's a trophy  
I'm with the same crowd, these the brodies  
I don't got the same mind, you don't know me  
You don't gotta do it loud, keep it low-key  
I'm tryna be here for mine, I can't hold you  
The Forgiatos twenty-four, this for Kobe  
I shouldn't have to say, you know that you owe me  
You ain't gotta search, you know that it's on me

Hats off if you keepin' it real  
It's so easy to fall victim to fake  
Durk the voice 'cause he know just what to say  
I'm the hero, I come through, save the day  
Hats off if you keepin' it real  
It's so easy to fall victim to fake  
Durk the voice 'cause he know just what to say

Bitch, I'm a D-boy, do it for T.Roy  
I'm on you forever, that's just word to V.Roy  
I'm with the killas forever, the trenches is in me  
The Grammys can't change me for nothin'  
I like the bitches who let me just offer them cash  
You never gon' ask me for nothin'  
Never gon' switch  
Only time I ever switch is a Glock with a motherfuckin' button  
Rappers be runnin' back, tellin' them bitches we hittin'  
That's why we don't be tellin' them nothin'  
4TF, Only the Family  
But Four Pockets Full, but we keep it a hundred  
That shit solid, I done took losses  
I done turned robbers to killers and bosses  
I been that nigga from way, way back

Way before Uzi was droppin' the cross  
We just a family, we never recruitin'  
Clique full of killas, we choosin' to shoot 'em  
Someone tell Kanye and Kim to just stick to the script  
And just tell 'em to free Larry Hoover  
Me, I'm the voice, Baby, the hero  
Trav like Michael Jackson, yeah  
Been in it a minute, it's crazy I'm winnin'  
It only feel like I've been rappin' a year  
Let a nigga play with me, I'm ready  
My bitch gettin' rich off cosmetics  
Life off, they done freed my daddy  
Lights off, I couldn't see my baby  
2010, I had a gun in my Pelle  
2011, I was fightin' my celly  
2012, I signed my deal in Cali  
2021, I'm big as Khaled, oh-woah

I wear my chain proud, it's a trophy  
I'm with the same crowd, these the brodies  
I don't got the same mind, you don't know me  
You don't gotta do it loud, keep it low-key  
I'm tryna be here for mine, I can't hold you

You see the crosses surroundin' the table  
But never crosses, we flip ya, alfredo  
Bro, do a solid without a potato  
I took the logic and built out a payroll  
All the whips chocolate, I built it like Legos (Let's go)

Only way that they ever find peace (Yeah)  
In that case, then I might need a priest (Yeah)  
In the streets, gotta keep the belief  
Not a wave, gotta keep you a sea (Sea)  
Look for me, gotta keep you a fee (Fee)  
Made a hundred and put it on gold (It's lit)  
Took the steppas and put 'em on roll (Straight up)
