

Lil Baby, Make It Out

I told my daughter she don't understand who her daddy is
I tell you something don't run your mouth but I bet he did
Landlord came to pick the rent up but I ain't let him in
And I be embarrassed I'm too addicted to this medicine
Hundred-thousand on my take it back tell em' don't threat again
Pray to the high power hope the judge give me a severance

Young niggas turnt up with the check look like a settlement
There's only me and a different couple of rappers who ain't checking in
You will never see my name in paperwork, never never
And there's a street nigga on my case, but he'll tell a teller
And I had a deep talk with my dogs and that shit feeling better
4TF this shit be big whenever we get together
I was like a little boy around this bitch had to get my shit together
I told my bitch that shit is a goal when you shit together
Ain't taking lean, switch his beans, shit my kit together
Some of this shit be temporary but loyalty, this shit forever
Everytime your dog die they forget about his momma and them
I done left his ass around some cash and he ain't pocket shit
Ain't the type to try to spread a rumor, I go off documents
I don't take threats like he died off a argument

Yea
Slide with 'em
Okay he did, but he died with 'em
How you say your ass a boss but you don't provide niggas
And I really love my brothers even though I clash with them

The second time ain't nothing like the first you gotta make it count
Everyday I'm tryna break this curse, gotta make it out
We ain't have no other way to go, we had to take her out
As soon as they come in we try and get em out
One day we gon run into you niggas betta watch yo mouth
Really don't be demons on believe that shit it's off of clout
I can make my people done em come see you for a small amount
I'm hot as a fever you know we the ones they talk about

Steady tryna get it, uplifting my city
Askin the DA can we fix this, I need Durk to get acquitted
Bad bitch with me, suck me until I finish
We both got a lot to lose so she won't ever tell my business
Nobody ain't with me ain't tryna have no co-defendants
You don't know how it feel where everywhere you live you get evicted.
Rubber band money the day I signed my deal I lost half a ticket
I wouldn't even rapping yet I move my mama out the trenches
21 to 22 I'm talking fresh up out the prison
I wouldn't give a damn if I did it then you can
Gambling with a 100 grand and started with 2 bands
I'm one o the one that sell a truckload with a few plays
I'm one of the ones that wear the same clothes for a few days
But I'm grinding
OTF from 4TF you know this shit get slimy
I won't get on one knee I'll pay one mill for a diamond, though
You know where to find me I ain't hiding hoe

The second time ain't nothing like the first you gotta make it count
Everyday I'm tryna break this curse, gotta make it out
We ain't have no otha way to go we had to take her out
As soon as they come in we try and get em out
One day we gon run into you niggas betta watch yo mouth
Really don't beat demons on believe that shit it's off of clout
I can make my people done em come see you for a small amount
I'm hot as a fever you know we the ones they talk about
