

# Lil Baby, Medical

How you steady screaming out child support you don't even support your own child  
You don't support none of yo niggas locked in them cages  
You waiting for trial  
I was always one of them niggas who the whole hood pray make it out  
Don't shoot the innocent bystanders  
If you gon slide, then make it count  
Going around this bitch like you real with it whole time you a clown  
Fuck if you ain't OTF or 4PF I think out loud  
I can't trust you if you run off with some clothes  
I can just imagine pounds  
Chicago hoes act like they love you but rob you  
I'm just putting you down  
Friends or not  
You touch one of my chains, them niggas gon' put you down  
I'm saving style  
Bullet proof Track Hawk cost me a 180-Thou  
My main homie, talk shit behind my back but I was so in denial  
You changed on me  
Same niggas with me, the same was in my trial

All these drugs, I want medical  
So high, I'm on cloud 9 I need a parachute  
He think I sold his ass some mud, I sold him Theraflu

I read between the lines, you really being shady  
Militant minded, whole Lotta ARs, we like the Navy  
Riding around town with Lil Kee in the 300 blackout  
I put the guys on pause, that's the only reason they back out  
I signed up for the streets, Not UFC I Ain't gon tap out  
They gave big bro a mandatory ten, he bout to max out  
When he take a pic, his racks out  
He go in the house, his strap out  
He done really worked his ass off  
He been at it his whole life  
He'll have a book if he start writing  
He don't care about excitement  
He been tryna take his time  
He done finally got it right  
He's important, he thinks he needs drugs to keep going  
He loves her, He loves her, nah he don't be knowing
