

Lil Baby, Stop Playin (feat. Jeremih)

You got it
I want it
Uh-huh
Know you need some love, attention
I'm 'bout it
Let's get it
Let's go
Know your heart is not for breaking
I be
I'll be
I'll be it
Won't you gon' be my lil' baby?
Stop playin'
Stop playin', stop playin'

This shit get deeper, it's only the surface
You get what you looking for
If I leave, would you keep it, just keep it a secret? But I gotta keep it going
Know the time I'm on demon, like fuck Halloween, turn this bitch to a horror story
Throw away the receipt, I ain't never gon' need it, I'm never returning nothin'
Kinda big for Miami, let's hit the Maldives, we can wake up in Bora Bora
When you see me, you speak, I got hittas with me but they know how to keep it cordial
If it's me, then it's me, but I feel like it's you, let me know how you wanna do it
I be goin' hard when I feel it, when I involve my dealings
This is how we gon' live
Foreign automobiles, six carats each ear
Hide ya pain getting dripped
Give a damn how they feel
This my life, I gotta live it
I'm the one and I'll admit it
Spending racks in every city
Dover Street all way to Lenox
I provide them with drip
Walk right back 'em, I'm still

And when you ready to go to sleep
You can put it all on me
Got a lil' time, you wanna talk, you can just call on me
Ain't no days off for me
Ain't no falling off for me
If I'm too much, then my bad
If you ain't really on that, then don't play like that
It's hard to leave
I done ran off for weeks
Say you gon' fall for me, then fall for me like autumn leaves
Trying to lay off of me
You off of me, I'm like, shawty, please
Then I'm like, shawty, please
Nevermind, shawty, please

You got it
I want it
Uh-huh
Know you need some love, attention
I'm 'bout it
Let's get it
Let's go
Know your heart is not for breaking
I be
I'll be
I'll be it
Won't you gon' be my lil' baby?
Stop playin'
(Stop playin')

Stop playin', stop playin'
