

Lil Baby, The World Is Yours To Take (FIFA World Cup)

I'm by far one of the hardest workers
Real firm believer in "practice make perfect"
You can gather all the water,
Stay thirsty
Took a lot to get us here
We broke curses
Kill or be killed
The field show no mercy
Losers just lose
While winners get worshipped
I came here for fun, let's get turned up
Somebody pass me a Budweiser
A cold one
I wanna rule the world, I can't hold you
Hell of a life I feel like I'm chosen
Head on tight I feel like I'm focused
I ain't ever satisfied
I want more
Covid came and held us up
We back rolling
Look at all the people in here
We got motion
Everybody back outside
That's sum to toast to
Whole bunch of real good vibes
It feel so cool
I think its about that time
It's getting closer
Whole lotta fingers crossed
A lotta hoping
Wishing for the best
Preparing for the worst too
Got out here and bust my ass
I had to work too
Some stuff is outta my hand
I can't control it
If I don't know nothing dawg I know one thing

Everybody Wants to Rule the World

I think I left all my feelings at home
It's okay, won't be using them anyway
I'm determined to win
Each and every way
Give thanks to the most highest,
Each and every day
Even when it's a sport I ain't come to play
I be serious, that's what works for me
same swang everyday I can't switch routine
Tryna go see some places I never seen
I done said a whole lot, never said it's easy
Tryna climb to the top,
I'm just steady creeping
Could be better a lot
But I'm more than decent
Kind of feel like a dream,
But I'm wide awake
They don't give you the title
You gotta take it
Lots of energy mixed with determination
I'm a go-er
I don't like procrastination
Im just growing
I feel like I need my space

When you really the truth you don't gotta fake it
I'm so close to the finish line I gotta make it
Gotta go when it's crunch
I can't hesitate
Handle business on time I ain't ever late
Im wit y'all but I come from another place
One thing we got in common is that

Everybody Wants to Rule the World
