

# Lil' Chris, I Never Noticed

I never thought I'd have so many sleepless nights  
over you  
I never thought we'd have so many stupid fights  
but we do  
So I stole your heart when the whole thing starts to  
Fall apart...from the start  
When you cried, I never noticed  
when you lied, I never noticed it  
when love died, I never noticed  
I guess it's true... I never noticed you  
I never understood, hearts only bend so far  
'til they break  
I never took the time to find out you you are  
my mistake  
I was so in love with the whole idea of being loved... so in love  
When you cried, I never noticed  
When you lied, I never noticed it  
When love died, I never noticed  
I guess it's true...What did I do?  
When you cried, I never noticed  
When you lied, I never noticed it  
When love died, I never noticed  
I guess it's true..I never noticed you
