

# Lil Durk, Federal Nightmares

Tahj Money

Feel like I don't be havin' nobody to vent to  
So I come to the studio, I'm just  
Talkin' my thoughts (TouchofTrent be wildin' with it)

Delete my iCloud if I think they really on me, though  
When trial come, it ain't your phone, it be your homie, though  
He on the stand with his head down like he don't know me, though  
It ain't no point in no gettin' lawyer if your homie told  
He was with you on them late nights and them fast cars and them ski masks  
If you mad, then I'm mad, then he mad, then he glad  
Incredible winnings, got every code to my keypad  
Couldn't hold it down, nigga jumped right off the deep end

Now I'm havin' federal nightmares  
I'm havin' federal nightmares  
Havin' federal nightmares  
I'm havin' federal nightmares

They love you, then when you get booked, then it's fucked  
Mama need half on rent, they treat her like she nothin'  
That gang shit be cool, in reality it ain't nothin'  
They know she hold you down, but your dog is still "fuck her"  
See, that— See, that shit hurt me the worst  
And I ain't understand life, so it ain't hurt me at first  
And I was tryna buy they loyalty, I was thirsty at first  
Even though I'm doin' good, I'm still thirsty for Percs

Now I'm havin' federal nightmares  
I'm havin' federal nightmares  
Havin' federal nightmares  
I'm havin' federal nightmares

I popped a pill one day and thought about a suicide  
I was feeling like nobody really loved me  
Like the bitch I loved really tried to dub me  
As a kid, a grown lady tried to rob me  
I see my niece and tell her her daddy was a rider  
Provider, and he advised us to rise up  
I can't wife a bitch who ever hit my guys up  
I pay two hundred cash for gang every time my bag's up

Now I'm havin' federal nightmares  
I'm havin' federal nightmares  
Havin' federal nightmares  
I'm havin' federal nightmares
