Tried to rearrange the game

Tried to bank us some slang

I got this new slang I had to switch it up
Rap a pimp courtesy or the trap
The mack will leave you on your back
Strap will leave you with a gap, start smilin
Flash, you see visions of the past
See niggas with masks
Couple cars with no tags, when we wilin
I'm from apartments
Started with gun and lint
Different day, same clip
So close I can't miss

Got bricks rooster chicks
Snatchin bread then we deal
Soutside represent

(Ludacris)

Now the clique is called DTP so get your crew right
We peer pressure fools, even dudley don't do right
Go on your city it's a south rebellion
Puttin foots in your ass is how we speak australian
Now im trained in the art of woop ass, check my acolades
I gotta knife and I'm giving out free aftershave
Plus a new acting gig take a look at the clip
Its called one up in the chain but fo in the hip!
I snatch yo girls in the club and use them as throw throttles
And you'll get hit throwin fifteen many mo' bottles
Got glocks for yo stocks and that thang for your chain
And uh..mutual guns for your mutual funds mayn
