

# Lil Rob, Bring Out The Freak In You

[Intro]

Let's get N-A-S-T-Y

Get ready for a nasty time

All the nasty things we can do

I wanna bring out the freak in you

Let me bring out the freak in you

[Verse 1]

I like seein you

Can't help but think nasty thoughts about me and you

All them nasty things we can do

Let me bring out the freak in you

There's somethin I see in you

I definitely see me in you

Doin what nasty people do

Can you blame me? Look at the ass on you

How the fuck can I pass on you?

Classy lookin freak, nasty attitude

I just have to be havin you

It must be like heaven just to handle you

Lay you down turn you inside out

Watch it slide in, and slide out

Hey girl you got a pretty mouth

Tease me a bit, lick your lips, suck your fingertips

[Chorus 2X]

Let's get N-A-S-T-Y

Get ready for a nasty time

All the nasty things we can do

I wanna bring out the freak in you

Let me bring out the freak in you

I wanna bring out the freak in you

Let me bring out the freak in you

[Verse 2]

Mmm, you look so good with me

And I look so good with you

Got me infatuated

With them nasty things you do

You look so good

And I just know you feel so good inside

I love your eyes, your creamy thighs

Now baby, open wide

I love the way you touch yourself

Rub yourself down, finger fuck yourself

Lookin like you enjoy yourself

Watchin me watch you, makin me want you

Even more you know what you do

I'm a man that knows what to do

And I'm a man that knows what I like

Turn around, titties down, ass up that's right

[Chorus]

[Verse 3]

So sexy the way you move

The way that you bend your body

Only keeps me in the mood

You exotic, tonight

I love that look on your face

You give them feel good expressions

I really dig your foreplay

Diz triple X in sex sessions

Bring your body close to mine

I think it's time that you blow my mind

Even though this foreplay's fun

The night isn't done until we both cum

[Chorus]
