

Lil' Rob, Natural High

been busy, been busy, been busy.....

lighter sparking up

inhale, cough

{Lil' Rob speaking}

What's up?

Lil' Rob

Back on my own

The way it should be

The only way that it can be

Let's take to the sky

{Lil' Rob}

Pack my pipa full of grieffa

Just like my woman

I could never leave her, cheat her, need her

So I take a puff and another puff

Exhale, then I take a breather

Cause I'll take my time and do it right

I know where I'll be tonight

Clouding the night in my mind

Feelin' fine, this is mine

You wanna get high?

Well come back another time

When you really want to fly

Cause I plan to take it to the point

Where I don't know my name

Won't even know where I'm at

But want to come back

To this place, where I sit

Rather your lips will take a hit

Prepare for licked, bring the pipe

Or a spliff I hit is swift

God's gift, to this world, got me in a twirl

In a whirl, everything I see is plural

I'm just blasing, hallucinating

And I can't lie, smoking crepa chocolate tie

Lemon teardrops falling from my eye

Take to the sky, on my natural high

Till the day I die

{chorus}

Take to the sky, of the natural high

Loving you more till the day I die

Take to the sky, of the natural high

Loving you more

{Lil' Rob}

I can smoke it on my own

leva alone

I'm in my zone

Stoned to the bone

Me in the dark, sittin' in the park

Forgettin' everything that hurts my heart

So I spark another joan, what's the poem?

Escape from reality, into a fantasy

That's sexuality, feel the passion

When the smoke is passin'

Everlastin' type of bud

When I smoke my buds

Takes me to a place

Smile upon my face

Cause she sets me free

From the things I see
Let me be somebody, hear my plea
It's only me, I'd rather be lonely
Roll it on my own, cause I hold my own
Toke it on my own, used to think of dyin'
Now I think of flyin', like I've never flown
Spread my wings and fly
Why lie? It's something that I can't deny
Take to the sky, on my natural high
Till the day I die

{chorus}
Take to the sky, of the natural high
Loving you more till the day I die
Take to the sky, of the natural high
Loving you more

{Lil' Rob}
Life is like a maze
Gots me in a craze
So I hide away in marijuanas maze
Change my evil ways
Stay another day
Captured in the rapture
Love the way she plays
Gots me feelin' weariness
Dizziness, love it when I feel like this
I'm real like this, smokin' all this flavored shit
It's time to call it quits
But once again my lighter flicks
And I take another puff
Just can't get enough
Of this happiness
Smoking canibus
Devotion to my potent potions
What I've chosen, love it when my time is frozen
Gots me in that motion, like I'm close to floatin'
Takin' to the sky, when I want to fly
And I'm sittin' on my cloud, like Joe Buton
Don't stop now, la grafepa gone, and I'm gone
It's the wicked, slicked, slide, type a guy
With, it's something that you can't deny
Take to the sky, on your natural high
Till the day you die

{chorus}
Take to the sky, of the natural high
Loving you more till the day I die
Take to the sky, of the natural high
Loving you more

Ooooo
Lil' Rob
Roll me another, mmmmm
Feels so good up in my chest
No stress
When I'm smoking on Maryjane
Ooooo, she's callin' my name
No doubt about it
Yeah, yeah, yeah
Take to the sky

{chorus}
Take to the sky, of the natural high
Loving you more till the day I die

Take to the sky, of the natural high
Loving you more

Take to the sky, yea
