

# Lil' Romeo, My First

Girl, i want to hold you close tonight  
let you no know that everything is all right  
It's just the way that you love  
It's just the way that you care  
you'll be there for me, i know

Chorus:

My first, my last  
I'm goin to love you forever  
My first, my last  
I'm going to leave you for never

Romeo:

Ever since i saw you i knew  
That i'll be there for you  
call you, we can go to the mall  
shop 'till you drop, stop with my icebox  
take you to see a movie or we could just car hop  
walk in the park, talk til it's dark  
than i can't wait till the next day to start  
hold you hand, sweet like candy, never figure it out  
they just don't understand  
listen close to what i'm sayin, baby girl, i got planes  
you only live once, keep it real, tell you the truth  
when i'm older i'd probely give you a ring  
cuz you are my first,my last,my everything

Chorus:

Girl,i think of you last night and wondered if you're safe  
if you're ok  
it's just the way that you move me  
girl you'll never lose me  
i'll be there for you because

chorus

no matter how high  
no matter how low  
i'll be there for you baby  
wherever you are, thats where i'll go  
that's where i want to be

romeo:

you make me smile every minute  
it's been worth my while  
perfume, lipstick, i like your style  
hit up the movies, we shared all types of goodies  
stayy for the prom,shorty was the bomb  
i touched her,she put her hands in my arms  
we danced all night to every song  
did the romeo joint dance when my song came on?  
last dance, last chance, for me  
to make a move  
make better, do it fast i can't  
i'm to scared she might laugh  
memories of the first kiss i ever had

chorus (repeat)
