## Lil Wayne, What He Does

Yea

But she always say

But she luv my style

Yea

[verse 1:]

N if i stay out late

Im commin home rich

Thinkin bout that pussy

On the grind got me home sick

Them dolla signs on my mind got me on this

If i dont hustle then wat happens in the mornin?

Do the sun even rise?

Do the birds sing?

When i can stand ova the stove n make the birds sing

U think about that

I'll be right back

Ring

There she go baby come right back

Click Ring

Then she call right back

Click

Ring

I toss the phone in the back

Quick

Think

Shyt u all i got

But if u leave me where u met me

Dat be on that clock

Gettin it

N when a nigga hittin it

**U** luvin

No cryin no fussin

Just as simple im commin

So when ya baby boy out there runnin

Dont cry

Dont fuss

Its simple im commin

[chorus:]

I kno what he does [x2]

So in luv [x2]

My baby

Dats my baby

Have his baby some day

N yes its been hard

Số hard

O00000

N dats my baby

I luv him

I luv him yawl

[verse 2:]

Уeа

I roll up on ha

N dat earth toner

She can smell the work on me

When i work on her

I see through that smerk on her

It hurts sort of

N i been n to deep since my first order

I just tell her dont expect the worst

She say she dont want to be stuck standing next to a nerf

I say i dont want to be stuck standing next to a curve

She said she dont wanna

I say shut up you pressing my nerve

She said who you tellin shut up
Then she get up
Start packing her shit up
Start calling her sister
Her sister dosent pick up
The tensions start to pick up
She cryin, she got hick ups
Im tellin her to cheer up
Im layin down she say sit up
I sit up, she push me down i sit up
She push me down i get up
Then i act like im a hit her
But im a better nigga

She cant find a better nigga, naw

[chorus:]

I kno what he does [x2]

So in luv [x2] My baby

Dats my baby

Have his baby some day

N yes its been hard

So hard Oooooo

N dats my baby

I luv him

I luv him yawl

[verse 3:]

I think about you when im riding dirty

I say i love you when i left i hope you heard

In case i neva make it back i hope you heard me In if you ever have twinz name them bright and early

Cause im out for the money i hope you down with it

No this aiint game but im found in it

And why be in it if im not gon win it

So ill be playin till the last minute, u dont get it

See that ground hurt when you hit it

I would'nt lie baby

But f\*\*\* with me and you forever fly baby

So far from the buttom i swear

You can smell the work in the air,im there

You can never take that from me

And what i been through you cant take back from me

If i offend you then mama get back from me

But if you love then i know you coming back for me, you love my style
