[Verse 1]

Yeah Straight off the corner Apple and Eagle

Brave hard bitch like the times Im medieval

Married to the block, Divorce the Cathedral

Standin on the corner selling Porcelain to People

Forced into evil, Its all in your head

It's also cerebral, call me Canival

You follow when i lead you

Straight to the needle

The barrel, the battle, the beetles will eat you

Mama named Cita, I love You Cita

Member when your pussy Second husband used to beat ya

Remember when i went into the kitchen got the cleever

He aint give a f**k i aint give a f**k neither

He could see the devil, see the devil in my features

You could smell the ether

You can see Cita

You can see the Cita, see the Cita in my features

I am her voice and the World is my speaker

Im speakin

[Chorus]

Living in a World a Fantasy

(Livin in a World a Fantasy)

His back agaisnt the wall

Living in a World a Fantasy

(Livin in a World a Fantasy)

His back agaisnt the wall

[Verse 2]

With my spine up agaist these

Tagged up brick walls

Fliip grams, quick hands, Quicksand Pitfalls

Big Balls intact, through error Syntac's

That Stormy Whether where the Trees dont bend back

Left home at 16

I aint never been back

When it come to being broke i say i never been flat

I punk ass bitch i aint never been that

Reminisce how Daddy cuaghta "slitch" in his lap

IN his newport box with only one stick left

Snort heroin then he'd shove me in the chest

Used to really believe, I never be the best

Hell must be on my shoulders Cuz the devil seent the rest

Right on it through his binge's and

Then poisinous Syringe's

Beaten on my mama kicked the doors of the hinges

I wish i was old enough to stop him when he did it

So long agao but even I cant forget it

So listen

[Chorus]

Living in a World a Fantasy
(Livin in a World a Fantasy)
His back agaisnt the wall
Living in a World a Fantasy
(Livin in a World a Fantasy)
His back agaisnt the wall

[Verse 3]

Demonic in my presence
Street corner like a reverend
Tryna find the change, Shining lightining like im in heaven
Triple seven, Triple Six
Trebulations, Triple trip
Triple grip, triple spitiin' like a had a trple lip
Lets make simple sense of the main difference
Angel if Death's Wing gotta s sinner in a Clench
Revolver in my fist, Earthworm to a fish
Bait on the line watch me cath them with this
Hope flound compound off round White rock
Ballin like Earl man i go in his high tops
Third eye cyclops, beaten down by five cops
Left for dead and it aint even my block
Think of my pops, thinkin of my moms
Rather be just blazin listenin to Saigon
Cuz when u think up, God strikes you down
Body full of current lightenining never hit the ground

[Chorus]

Living in a World a Fantasy
(Livin in a World a Fantasy)
His back agaisnt the wall
Living in a World a Fantasy
(Livin in a World a Fantasy)
His back agaisnt the wall
