

# LIL YACHTY, WE SAW THE SUN!

Suns coming out and I still feel numb  
In the dark my secrets hide, I run!  
A few more drops upon your tongue  
A night to remember that can't be undone

Head spun, meanwhile you're done  
Had a little too much fun  
I can not stop touching you  
This just took my high to the moon!

It don't get no better  
Moments like this reveal the truth  
Alone with only you  
Take a picture 'cause we'll need proof  
Nobody will believe we saw the sun  
If this don't work out remember what we've done!

It don't get no better!  
Take a picture, 'cause we'll need proof!  
Nobody will believe we saw the sun!  
If it don't work out remember what we've done!

Yeah, yeah, yeah, yeah  
Yeah, yeah, yeah, yeah

Just let your imagination run wild  
Let your heart be your guide  
And the time you sat around worrying about it and trying to plan out painting  
You could have completed a painting already  
Let it happen  
Let it happen  
And I would spend sometimes weeks, just working on a picture drawing it out getting all the little sk  
And then I'd go back and spend maybe a month trying to fill in the blocks  
And here we let it happen, it comes from up here  
It's in you, and you put it on the canvas, okay?  
Let's see
