It's not about the money

(chorus)2x

You see its not the (money) (5x)  
You say it aint about the (lovin) (5x)  
You be on the alone its (nuthin) (5x)  
If its not nuthin  
Girl its gotta be somethin  
Slippin fallin slippin  
You must really love me

(Lil' Zane)

Told so many lies  
By so many different guys  
Its hard to see the truth when in front of your eyes  
I'm from a city of conflicts  
Criminals and convicts  
Livin on the run baby  
Only havin fun baby  
She was just a friend so I never dug her  
A young thug and so it wasn't in my heart to love her  
You say you love me regardless  
You was young and I was heartless  
We both said it  
I was hard headed  
Everything you said went into a ear and out another  
I couldn't understand you wanted me to be your lover  
You took time every night to write me love letters  
And you used to whisper in my ear nobody does it better  
And did I mention it was long letters  
I like they way you squeeze in them dungaries  
But the thongs betta

And you believe that I'm not there  
Till it make it feel like if you leave then I won't care  
Yeah

(chorus)

(Lil' Zane)

All my life I been goin through depression  
More of the love and less dressin  
I'm tired of guessin  
Tell me if you want affection  
You make a thug feel love  
You head rushin  
And I can't seem to get enough  
Can I touch somethin?  
You're like an angle wit some wings sent to guide me  
The law try to lock me down but you hide me  
Be beside me strapped for war soldier guide me  
I'm tryin to be wit you  
Aint a army that can stop me  
Told me team the dream and automatically they knock me  
Said ya beat me down cause I'm young I'm like "watch me"  
I love winnin, ice linen and keep my dubbz spinnin  
Love women, street corners and I'm gone keep on bendin  
Wit you its no pretendin  
And even at the beginin I knew that you was wit it  
Even tho I neva hit it  
Forgive me for the times I bullshitted  
And now I'm all yours  
Baby you did it

(chorus)4x
