

Lili Haydn, Come Here

How do you remember your dreams?
and do you understand your crime?
I know the guideposts are hidden
Maybe you need a neon sign

If you ever loved me
If you ever cared
If you think I'm worthy
Come here, come here
If you ever loved me
If you ever cared
If you think I'm worthy
Come here

I know you've been to every circus
Just trying to take away your pain
But please remember I'm your friend
I'm not to blame

If you ever loved me
If you ever cared
If you think I'm worthy
Come here, come here
(x2)

I need a miracle
A sign
I want you to hold me
Be kind

If you ever loved me...
