

Lillian Axe, The More That You Get

A long time ago

Like a fool I thought I could love you

The more that I tried

The more that you lied, I believed in you

You say you can get

Any man that you want

But keeping one's a different story

CHORUS 1

The more that you get

The more that you want

The more that you get

The more that you want

And I'm the one to give you some

You break my heart

Just feed on the tears that I'm crying

When we make love

It's all we can do, but you're lying

Oh yeah, you say you can get

Any man that you want

But holding on's a different story

CHORUS 2

The more that you get

The more that you want

The more that you get

The more that you take

It's time that I steal your heart away

CHORUS 1

The more that you get

The more that you want

The more that you get

The more that you get

The more that you take

The more that you want
