

# Lillian Axe, Vision In The Night

One winter night, hear the call

Look through her burning eyes

He saw her face, a distorted blur

Like a dream that never lies

Fade away to black

(Never) Never coming back

(She's a) Shadow in his mind

(She's a) Love he'll never find

Haunting scenes causing you pain

Making you realize

Climbing the walls, going insane

Never to see her eyes

CHORUS:

She's a vision in the night

She's a diamond in the firelight of love

She's a vision in the night

She's a memory of a clouded mind

She's a vision of love

One winter night, she held his hand

Making him lose his mind

He turned around, nowhere to be found

He knew he'd never find her

CHORUS
