Lillix, Got Off Easy

There's something you should know That I could never tell You think that I am better I thought of telling you at home or on the phone Or written in a letter.

When the world is asleep I am still trying to figure it out And the secrets I'm keeping Are what I am always about

I know I got off easy God knows why you believe me Hiding behind little white lies This time I got off easy When will you ever see? That I got, and I got, and I got off, and I got off easy.

There's something you would know If you could read my mind Or look behind my cover Creeping around at night Is it impossible to be an honest lover?

So I'll live and I'll die Never be satisfied 'till tommorow Can I change this? Arrange this to keep me from feeling so hollow?

I know I got off easy. God knows why you believe me. Hiding behind little white lies. This time I got off easy. When will you ever see That I got, and I got, and I got, and I got off easy And I got, and I got, and I got, and I got off easy.

I know I got off easy When will you ever see That I got, and I got, and I got, and I got off easy. That I got, and I got, and I got, and I got off easy.
