

Lily Frost, All Right

Verse #1

Don't worry yourself,
not even a bit
Don't jump off a cliff or throw a fit.
I'm gonna be ok.
I'm gonna make it my way.

Chorus

Everything's alright!
The sun is shining and it's gonna be a clear night!
Everything's a-ok!
Nothing's going wrong and today is Friday!
A weekend to party and forget about you.
Everything's alright tonight!

Verse #2

Even though it's over I hope we can be friends.
Even though we're finished it's not the end.
Even though you're broken I feel as if I'm free.
Even though you may feel old, I feel like I'm three.

Chorus

So put on a happy face.
Don't make it a big thing.
We're over, so let it go.

Chorus x2

Everything's alright.
Everything's alright.
Everything's alrightttt.
