

Linda Davis, When You Took Your Love Away

(Skip Ewing/Liz Hengher)

The moment that I looked at you
A voice inside of me
Said you'd better guard your heart
And love him cautiously
If I'd only listened
To the things I heard me say
I'd have still been standing
When you took your love away
Tell me baby was it hard
To keep your charade
Did you mark me from the start
As a target to be played
I feel so damn cheated
I don't know quite what to say
You made it look so easy
When you took your love away
I gave you my inside
I gave you my heart
I gave you no reason
to just tear it all apart
Now I'm diggin through the rubble
Of a trust that's been betrayed
You did a lot of damage
When you took your love away
The only hope I ever have
About you anymore
Is that someone comes along
To even up the score
And you won't see it coming
You'll just look in dismay
You'll be so blindsided
When she takes her love away
I gave you my inside
I gave you my heart
I gave you no reason
to just tear it all apart
Now I'm diggin through the rubble
Of a trust that's been betrayed
You did a lot of damage
When you took your love away
I gave you my inside
I gave you my heart
I gave you no reason
to just tear it all apart
Now I'm diggin through the rubble
Of a trust that's been betrayed
You did a lot of damage
When you took your love away
You did a lot of damage
When you took you love away
