

# Linda Eder, This Time Around

This time around I'll take the moment  
This time around I'll make it last  
I've had my share of wasted moments  
But this time around I'm holding fast  
This time around I will be stronger  
Stronger than I've been before  
I'll find the sky and soar  
This time around  
This time around I will be daring  
I'm going where I've never been  
This time around luck will come knocking  
And when he does I'll let him in  
This time around - No second places  
I'm showing aces - I'll win  
I'm gonna have it all  
This time around  
Love, I'm gonna find you  
Happiness, I'm right behind you  
I've had my share of crying  
But there's no denying I'm on my way  
This time around I'll taste the glory  
And I'm not going down without a fight  
This is my life, my own story  
And this time around I'll get it right  
This time around, I'm gonna find it  
Look out world, watch me shine, shine  
I'm gonna grab that big brass ring  
And I'm gonna make it mine  
This time around, I'm gonna make it mine
